WORKSHOP **Walkability for Health**

Alvaro Valera Sosa

Macro urban factors | Meso-level Patterns | Micro Design Variables

13th | 14th - 27th | 28th March 2017

11.00 | 12.30

Architecture for Health Reviews

Alvaro Valera Sosa

PhD researchers and master students from all clusters at the architecture school are welcome to present and discuss their planning & design for health projects. The review aims to offer a renewed insight on the relevance of problems tackled and the problem solving approach
